E. H. POLLARD, Esq. The Scheme of a Local Bank for this Colony with Brunches at the most important places in China, has been in contemplation for a very long period. The local and foreign trails in Hongkong and at the open ports in China and Japan has increased so rapidwithin the last few years that additional Banking facilities are felt to be required. The Banks now in China being only branches of Corporations whose head quarters are in England or India, and which were formed chiefly with the view of carrying on exchange operations between those countries and China, are scarcely in a position to deal satisfactorily with the local trade which has become so much more extensive and varied than in former years. This deficiency the Hongkong and Shanghai Bauking Company will supply, and will in fact assume the same position with relation to this Colony as the Presidency Banks in India, or the Banks of Australia in their respective localities. The Establishment of a Mint in Hongkong. providing an adequate supply of proper currency, will render to the Banking medium essential to carry out ita operations, and the almost certain disappearance of the cristing Comprideric system (so far as money is concerned) will also ensure Banks becoming in course of time the exclusive rations connected with trade.

AGU MONEY IN the year 1857 the Directors made a consider. able reduction in the Ucmpany's rates of Passage Money, which continued in force till 1861. In that year, owing to the extraordinary rise in the Cost and Freight of Coals, and the enhanced price of all descriptions of Naval Stores, the Directors were reluctantly compelled to return to the vates of Passage Money previously in force. They are now happy to state that a decreuse in the price of Coal and other expenses of Steam Navigation enables them to reduce the Company's Passage rates to the undernoted suale, which will
